REMARKS

This divisional patent application is being filed to facilitate presentation of claims directed to subject matter originally presented in the parent application, and should not be construed as an admission regarding the separateness of any "inventions".

The present Amendment cancels claims 1-15 and 27-32 from consideration in this application. After entry of this Amendment claims 16-26 and 33 remain pending in the application. Applicants respectfully request that the Examiner consider these claims and assess the patentability of the subject matter of all pending claims. Having made the assessment, Applicants respectfully request that all prior art considered be made of record and that the Examiner issue a Notice of Allowability.

Respectfully submitted,

Dated: October 9, 2003
